

Hi Again!

Info about number of residents the non-Citizen voting could affect:

According to the 2020 American Community Survey 5-year data, 5.5% of the City of Burlington's population are not U.S. Citizens. Additionally, 5.1% of the City's population has been through the naturalization process. All Legal Resident voting could impact thousands of community members in Burlington. This is an estimate of 2,132 residents.

Please let me know if there is any other follow-up the committee would like to see.

Thank you,
Sarah Montgomery
Assistant City Clerk, Burlington
